

the **FINISHLINE™** 

Four pre-finishing solutions to save you time and money!

- **UV Wood™**
- **UV LabCoat™**
- **CustomColors™**
- **FirstStep™**

Since 1996, Columbia Forest Products' Finish-Line has delivered over 20 million pre-finished panels to the industry. For a durable, VOC-free, UV-cured, clear top coat we offer UV Wood; for a custom-matched stain we have CustomColors; for a lab grade, chemical-resistant finish we can supply UV LabCoat; or if your project is to be painted, then we offer FirstStep, our pre-primed, ready-to-paint panels.

Features & Benefits

- Pre-finished surface reduces labor time, increasing productivity and efficiency in fabrication and prevents bottlenecks common at the spray booth.
- Four regional FinishLine facilities across North America for consistent availability and prompt delivery.
- VOC-free product ensures no degradation of indoor air quality.
- Over 50 years of making the industry's superior hardwood plywood.

The FinishLine at Columbia offers you the convenience of specifying a factory pre-finished panel for every type of project. This will save time and money in the fabrication process.

Specifications	UV Wood™	UV LabCoat™	CustomColors™	FirstStep™
Finish Thickness Dry	1.0 – 1.5 mil	2.3 – 3.5 mil	1.0 – 1.5 mil	1.0 mil
Finish Type	Epoxy Acrylate	Epoxy Acrylate	Epoxy Acrylate	Cross-linked water-based primer
Colors	Clear	Clear	Can match any color	White or Beige
% of Solids Applied	100%	100%	100%	52%
VOC Emissions	None	None	None	None
Effect of Water or Solvent	None	None	None	Compatible with water or solvent based coatings

AWI/NKB/ANSI Standard	Exceeds	Exceeds	Exceeds	NA
Durability	Excellent	More Chemical Resistant than our standard UV Wood	Excellent	Standard
Necessary Wood Preparation	None	None	None	Lightly sand with 320 grit or finer sandpaper to remove fiber pop, grit and roughness before painting
Gloss Level Options	Satin: 30-40% reflection (specify at time of order placement) Medium Gloss: 50-60% reflection (standard) High Gloss: 80-90% reflection (Specify at time of order placement)	Satin: 30-40% reflection (specify at time of order placement) Medium Gloss: 50-60% reflection (standard) High Gloss: 80-90% reflection (Specify at time of order placement)	Satin: 30-40% reflection (specify at time of order placement) Medium Gloss: 50-60% reflection (standard) High Gloss: 80-90% reflection (Specify at time of order placement)	NA
Pass SEFA Certification	No	Yes	No	No
Minimum Order	240 UV one side, or 120 UV two sides	240 UV one side, or 120 UV two sides	240 UV one side, or 120 UV two sides	24 Panels
Mills Servicing	Chatham, VA; Trumann, AR; Klamath Falls, OR; Hearst ON, Canada	Chatham, VA; Trumann, AR; Klamath Falls, OR; Hearst ON, Canada	Chatham, VA; Trumann, AR	Old Fort, NC
Suggested Applications	<ul style="list-style-type: none"> • Residential kitchen cabinets and casework • Light commercial use 	<ul style="list-style-type: none"> • Laboratory furniture and fixtures • Commercial, institutional, or retail fixtures and casework • Anywhere resistance to chemicals is required 	<ul style="list-style-type: none"> • Residential kitchen cabinets and casework • Light commercial use 	<ul style="list-style-type: none"> • Residential kitchen cabinets and casework • Light commercial use

What our customers say about The FinishLine products:

The CustomColors stain allows us to do something that we couldn't do before. It's a winner!"

David Loeb, owner, Innerspace, Miami, FL

"The primed panel has greatly reduced our spray booth bottleneck which is always an issue. With the primed panel, we can save from 1 to 1 1/2 days per kitchen completion."

John Propps, Challenge Ltd, Myrtle Beach, SC

UV Wood

Pre-finished hardwood plywood panels featuring a clear, durable topcoat. It's scratch-resistant and enhances the beauty of real wood veneers.

UV LabCoat

SEFA certified chemical-resistant finish used in labs, schools, and other commercial installations that require a laboratory finish.

CustomColors

We custom match your color with a UV-cured, 100% solids stain using state-of-the-art equipment and provide superior quality and consistency.

FirstStep

Pre-primed, ready-to-use panels. Eliminates sealing and priming steps in your finishing process. Just sand for smoothness, then paint.
