## Four pre-finishing solutions to save you time and money!

- › **CustomColors™**
- › **UV LabCoat™**
- › **FirstStep™**
- › **UV Wood™**

Since 1996, Columbia Forest Products' FinishLine has delivered over 20 million pre-finished panels to the industry. For a durable, VOC-free, UV-cured, clear top coat we offer UV Wood; for a custom-matched stain we have CustomColors; for a lab grade, chemical-resistant finish we can supply UV LabCoat; or if your project is to be painted, then we offer FirstStep, our pre-primed, ready-to-paint panels.

FOREST PRODUCTS™

The FinishLine at Columbia offers you the convenience of specifying a factory pre-finished panel for every type of project. This will save time and money in the fabrication process.

**What our customers say about The FinishLine products:**

*"The CustomColors stain allows us to do something that we couldn't do before. It's a winner!"*

**David Loeb, owner,  
Innerspace, Miami, FL**

*"The primed panel has greatly reduced our spray booth bottleneck which is always an issue. With the primed panel, we can save from 1 to 1 1/2 days per kitchen completion."*

**John Propps,  
Challenge Ltd, Myrtle Beach, SC**

Specifications	UV Wood™	UV LabCoat™	CustomColors™	FirstStep™

## Features & Benefits

- Pre-finished surface reduces labor time, increasing productivity and efficiency in fabrication and prevents bottlenecks common at the spray booth.
- Four regional FinishLine facilities across North America for consistent availability and prompt delivery.
- VOC-free product ensures no degradation of indoor air quality.
- Over 50 years of making the industry's superior hardwood plywood.

### UV Wood™

Pre-finished hardwood plywood panels featuring a clear, durable topcoat. It's scratch-resistant and enhances the beauty of real wood veneers.

### UV LabCoat™

SEFA certified chemical-resistant finish used in labs, schools, and other commercial installations that require a laboratory finish.

### CustomColors™

We custom match your color with a UV-cured, 100% solids stain using state-of-the-art equipment and provide superior quality and consistency.

### FirstStep™

Pre-primed, ready-to-use panels. Eliminates sealing and priming steps in your finishing process. Just sand for smoothness, then paint.
