

Hardwood Veneer Hardwood Logs Hardwood Plywood

Your source for North American hardwood logs, veneer and plywood. Columbia Forest Products is North America's leading producer of rotary hardwood veneer faces with three manufacturing sites strategically located throughout one of the world's premier hardwood baskets. This position in the market also allows us to export hardwood logs and premium hardwood plywood around the globe.

Logs

Rotary Cut and
Plain Sliced Veneer

Plywood

ROTARY PEELED SPECIES:

Red Oak

Sap Hard Maple

Natural Ash

Natural Birch

Sap Birch

Consistent, Environmentally Responsible, Versatile....

These are among the most important attributes that a supplier can have in today's hardwood products industry. Columbia Hardwood Veneer should be a key component of your hardwood purchasing strategy.

- Experienced in a range of species in addition to those we produce regularly
- Log-run production available as well as custom grading
- Range of widths and lengths available in un-spliced, spliced and whole piece forms
- Variety of matching types (book matched, running match, slip match, plank match, etc.)

SPECIFICATIONS:

Thicknesses available from 0.5 mm to 1.6 mm

Length 1,905 mm - 3,124 mm

Width 1,270 mm - 1,575 mm

Commonly available in stock panel grades, door faces, dimension specific / cut-to-size and components clipped to width and length.

Treasured for Generations™

PLAIN SLICED:

Aromatic Cedar

Alder

APPALACHIAN TRADITIONS:

Bristol Birch

Hampton Maple

Middletown Maple

Our three veneer operations in **Newport, Vermont;** **Mellen, Wisconsin** and **Presque Isle, Maine** are strategically located to receive logs from the richest forestland in the US and Canada.

Appalachian Traditions

Appalachian Traditions™ (AT) offers the harmonious look of solid lumber. Each face is plank matched, eliminating the repetitive characteristics found in book matched offerings. Each face is unique and is available in 5 species: **Hard Maple, Red Oak, Birch, Ash and Poplar.**

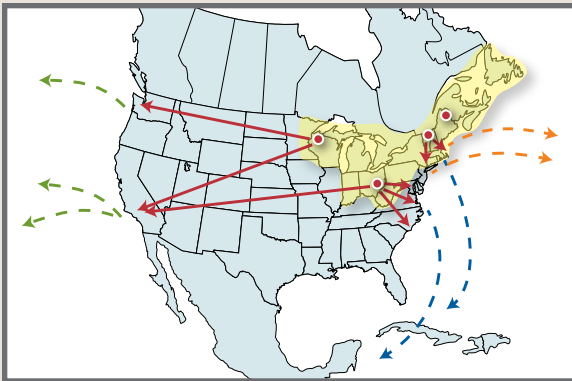

This is just a sample of the faces that Columbia can provide. Contact your representative for a full list or samples.

Columbia Hardwood Log Procurement

- Our log procurement group guarantees a steady supply of fresh and on-grade logs to our yards
- Red Oak, White Oak, Hard Maple, Walnut, Cherry, Ash, and Basswood logs available
- Reliable monthly volumes of the species mix that the North American market is calling for
- High-quality products that you can plan around—order after order

Sourcing and Exporting

- Northeastern US wood basket
- Columbia's 3 veneer mills and Ohio log yard
- US ports accessible from each location
- - - Ports for Southern export routes
- - - Ports for Western export routes
- - - Ports for Eastern export routes

PureBond Hardwood Plywood

Columbia is also North America's largest manufacturer of hardwood plywood. We can provide premium veneer core plywood from 10 manufacturing plants in the US and Canada.

- Standard panel sizes are 4 x 8' and 4 x 10', but other custom sizes are available
- Available thicknesses from 1/8" to 1 1/4"
- Cores include veneer core, MDF, particleboard and combi-cores
- All standard panels are made with soy-based, formaldehyde-free PureBond® technology.

For more information on Columbia's hardwood veneer, log or plywood products visit www.cfpwood.com or use the contact information below.

Columbia Forest Products can provide FSC® certified logs, veneers and plywood panels upon request.
